Professional Summary

Motivated and detail-oriented BCA student with a passion for frontend development and modern user interface design. Skilled in HTML, CSS, JavaScript, Python, Core Java, Flutter, and UI/UX principles. I enjoy transforming ideas into responsive, visually appealing, and user-friendly websites. My learning approach focuses on hands-on projects, continuous improvement, and writing clean, maintainable code. Currently seeking internship opportunities where I can contribute to real-world projects while expanding my technical knowledge and professional experience.

Education

Bachelor of Computer Applications (BCA)

Silver Oak University

Expected Graduation: 2028

Technical Skills

- Frontend: HTML5, CSS3, JavaScript
- Programming: Python, Core Java
- Mobile: Flutter (Learning)
- Design: UI/UX Design, Responsive Design
- Tools: Git, GitHub, Visual Studio Code
- Concepts: DOM Manipulation, Flexbox, CSS Grid, Basic Debugging

Project

Personal Portfolio Website

- Designed and developed a fully responsive personal portfolio website from scratch.
- Implemented modern UI/UX with smooth scrolling, animations, and clean layouts.
- Integrated an AI chatbot to answer questions about skills, projects, certifications, and contact details.
- Optimized the website for desktop, tablet, and mobile devices.
- Focused on accessibility, performance, and maintainable code.
- Deployed the project on Netlify for public access.
